Schematic design
Tourism Development Authority's approvals
Design development
Detailed design
Tender documents
Construction documents
Construction supervision

Citystars Red Sea Riviera is a landmark resort that extends over a land area of 10 million square meters at Abu Soma south of Hurghada, Egypt.

The resort—owned by Citystars Properties—is set to be a luxurious, gated mixed-use community anchored by the upscale Fairmont Citystars Resort and Fairmont-branded residential apartments and villas, alongside recreational, cultural, commercial, and social facilities for residents and visitors.

Location

Safaga, Egypt

Types of Activities

Infrastructure
Landscaping
Urban design

The resort project is divided into six main phases. Phase 1 (A & B) extends over a land area of approximately 2,000,000 m² and includes four- and five-star hotels, furnished hotelserviced apartments, residential buildings, a marina, and a lagoon, as well as commercial and recreational areas.

This project covers the master-planning of the resort's entire land area, along with the urban, infrastructure, and landscape design of the land area earmarked for Phase 1 (A & B).
