Stretching on an area of 4,600 m², the hospital building consists of a three-level basement, ground floor, and three typical floors. It occupies 40% of the land area and has a total built-up area of 20,800 m².

The hospital encompasses medical care departments including emergency, radiology, operations, intensive care, neonatal intensive care unit (NICU), cardiac intensive

care unit, outpatient clinics, laboratories, and dialysis); and non-medical service facilities including kitchen, laundry, sterilization center, waste management center, and morgue. This adds to the new radiation oncology department.
