Mechanical  
Piping  
Structural

Dammam Port is located on the east coast of the Kingdom of Saudi Arabia. The project aims at upgrading and expanding the facilities of port terminal including the First Container Terminal ("T1") and the Second Container Terminal ("T2"). The Terminals provide the services of handling, storage, and distribution of

containerized cargoes, as well as warehouses. Works covered the design of fire water system, dry utilities, and new buildings (gate 23, substation, open shed D1, open shed 3, hazardous shed, and fuel station).
