Project comprises two main components: welcoming and facility buildings, and the cycle track.

Welcoming buildings and camping zones of 4,275 m² of area houses; Commercial/medical block (of 169 m² BUA), Admission office (122.25 m²), Utility block (123.50 m²), Toilets block (30.75 m²), Workshop facility (50 m²), Caravan motel (20 m²), Motel Type A (14.79 m²), Motel Type B (29.77

m²), in addition to visitors' parking lot for about 300 cars.

The 18.4 km long cycle track of 6 m width runs around site edges, considering site topography, with different challenge levels, and is served with solar powered street lighting and temporary facilities.
