Electrical  
HVAC  
Infrastructure  
Interior Design  
Landscaping  
Mechanical  
Roads  
Structural  
Urban Planning

This project encompasses designing and planning community amenities, including four mosques with a total capacity of 3,059 worshipers and a built-up area of approximately 6,200 m<sup>2</sup>, three prototype clubhouses totaling 2,216 m<sup>2</sup> distributed across the community, and a central retail building covering about 2,000 m<sup>2</sup>,

housing an anchorage supermarket and a nursery. These amenities will be integrated within the first gated residential community on Reem Island to serve the residents and enhance the overall community experience.
